**S.T.A.R.S
MARCH 1ST
MEETING**

Bob Sendor, one of our clubs new Hams, will give a talk on his SUPERMORSE Program that can be run on IBM & PC Compatables. Also Bob will demonstrate the Bel-Tek Memory Keyer Kit. Included at this meeting will be many articles the club has collected for sale in regards to the H.F.FUND DRIVE.

Randy Schueller (KA2RFW) will be holding a Ham Radio Club for Kids at the Youth Center starting February 8th. At this time a room upstairs will officially open with a operating H.F. Station. The room will be open at our March meeting, so please stop by for a look!!!!

In the near future, Bill Siska (N2GA0) will be giving a program and demonstration on Packet Radio.

73,
**Bob Witt
WA2IQX**

Guz - WB2EZU

First on the list is the new G5RV antenna that the club installed at the youth center club room. They were able to check into the Saturday morning net of February 17th with a very good signal. You know the old antenna at the youth center was one of the first antennas installed by the club. It was outside and later put indoors under the new roof. It sure was cut, trimmed, tuned and moved quite a lot, but served its purpose. The new G5RV promises to be a big improvement and more flexible for band changes. Hope it gets a lot of use.

Well it is finally happening, FCC is starting to propose some drastic changes in the class of Amateur Radio licenses. There is talk of eliminating the novice and tech license grades. It is to your advantage to try to upgrade as soon as possible. For more and later up to date info get in touch with Dick W2UJR or Matt NS2M as they are keeping abreast of all the latest changes.

How many of you have participated in the new rig donations that the club has started in order to upgrade our antique equipment at the club rooms. Please look around your shack for your unused equipment and donate them to the club to sell. As Bob says if you have no spare parts to donate why cash will be OK, HEE HEE !

The Saturday morning net has started a new system and will endeavor to have a different acting net control operator every week. Last week (Feb 17th) the new net control operator almost broke a record with the large amount of check ins. It is fun and as we are a learning club feel free to join a session once in a while.

You know it has been brought to my attention that in the 1990 Amateur call book there are some calls missing of club members. Time passes fast and FCC does not notify you when your license expires, so please take a look at your ticket and have it taken care of. You can renew within two years and still keep your old call, so let everyone know about it. You worked too hard to have it taken away from you.

Happy Hamming
Guz WB2EZU

VE REPORT

STARS will hold a VE test session on April, 11 1990 at the Hamburg Junior High School rooms 117/119; 360 Division st. Hamburg. Wed at 7:00-10:00 PM; Tech through Extra exams will be given.
